COMMENTS INVITED ON VERIZON'S APPLICATION TO DISCONTINUE FEDERALLY-TARIFFED PHYSICAL COLLOCATION SERVICE

WC Docket No. 02-237

Comments Due: September 18, 2002
Reply Comments Due: October 3, 2002

Section 214 Application
Applicant: Verizon Telephone Companies

On August 16, 2002, **Verizon Telephone Companies** (Verizon or Applicant) filed an application with the Federal Communications Commission (FCC or Commission), requesting authority under section 214 of the Communications Act of 1934, as amended,¹ to discontinue provision of federally-tariffed physical collocation services in the former Bell Atlantic region.

The application indicates that Verizon seeks authority to discontinue providing expanded interconnection services through physical collocation in the former Bell Atlantic region through its interstate tariffs. Verizon states that expanded interconnection through virtual collocation will continue to be available through its interstate tariffs, and physical collocation will continue to be available through Verizon's state tariffs and interconnection agreements. Verizon will allow customers the option of retaining existing physical collocation arrangements under the interstate tariffs, or of converting those arrangements to rates, terms and conditions in Verizon's state tariffs or interconnection agreements. Verizon proposes that supporting services, including DC power and new cross-connects, for all physical collocation arrangements will no longer be available through the interstate tariff, but will remain available to collocators through state tariffs and interconnection agreements.

In accordance with section 63.71(c), the application will be deemed granted on the 60th day after the release date of this notice, unless the Commission has notified Applicant that the grant

will not be automatically effective.² The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another source, or that the public convenience and necessity would be otherwise adversely affected.
